

# Multi-Day Private Journeys for Families, Friends, and Groups

📍 Europe

Every Friday, Saturday, & Sunday -

## **Private Journeys for Families, Friends, Groups, Special Occasions, or Tourism Companies**

Unlike our scheduled tours, Private Journeys are designed exclusively for your group.

Whether you wish to explore mountain villages, lakeside towns, scenic Alpine routes, cultural landmarks, hidden Swiss gems, or destinations across Europe, we work closely with you to create an itinerary that reflects your interests, travel style, pace, and priorities.

Our standard private journeys are designed for up to three days, though longer itineraries may be arranged upon request, subject to availability and mutual agreement.

Each journey is carefully tailored to your group's preferences and, of course, includes transportation, basic planning, and sightseeing. Depending on the package you choose, it may also include accommodation arrangements and other services tailored to your travel goals.

As each Private Journey is individually designed, a modest Journey Design & Consultation Fee is required prior to itinerary development. This fee covers consultation, destination research, route planning, logistics coordination, and the preparation of a personalized travel proposal. Further details will be provided following review of your inquiry.

Should you proceed with the booking, the design fee will be credited toward the final journey price.
